## JSM SOLID VINYL DECKING

- Not a composite made from glue, plastic, and wood
- Decking made completely from PVC, and as such, acts like PVC in strength and durability
- Will not stain or absorb water or other chemicals
- It can be fastened with nails, deck screws, or hidden fasteners (sides are grooved)
- Available in three beautiful colors; gray, almond, & beige
- It measures 1" x 5 1/2" and comes in three lengths: 12', 16' & 20'
- Slip resistant with a nice raised wood grain, heat embossed onto its surface
- Do your deck once & forget about it!

**SHOWER ENCLOSURES AVAILABLE IN DIFFERENT SIZES & COLORS**

**DECORATIVE GATE INSERTS TO PERSONALIZE YOUR ENTRANCE**

All of our fence styles are available in both standard and custom heights and lengths. they are available in white, Almond, Gray, and Adobe Colors. Our Privacy Panels & our Wide Picket Panels are available in our embossed woodgrain look in White, Almond, Gray, and Adobe.

## NOT ALL VINYL IS THE SAME!

If the fence professional you are dealing with tells you different, call someone else!! Our products are made from high quality materials with attention to detail in their fabrication, and sold at a competitive price. If someone else's pricing seems too good to be true, it probably is. Remember, as in anything else, you get what you pay for! This applies to both material and installation. All of our picket panels come with aluminum in the bottom rail, Yes ALUMINUM, not steel, which will rust. Our privacy panels which have a 2 x 7 bottom rail do not require a metal support because the rail is engineered to work without it. Check our product against what most of the competition offers, and you can clearly see the difference!!
